

Kevin Nguyen

Front End Web Developer

APPLICATIONS DEVELOPED

Oladaa [live](#) | [github](#)

- A Fitbit companion application that suggests events based on a user's interests and activity level.
- Built with **React.js**, **Redux**, **Material UI**, **CSS**, and **jQuery** for our front end development, and as for our back end, we used **PHP**, **MySQL**, and made sure to implement password encryption.

Aftershocks! [live](#) | [github](#)

- An earthquake tracker app that retrieves real-time earthquake data from USGS and news from Twitter using API Ajax calls.
- Awarded first place for the most well programmed, designed, and interesting application by our peers.
- Built with **Javascript** in order to utilize the data and build out our basic functionality, and **Bootstrap**, **HTML5**, and **CSS** for our styling.

Days Are Just Packed [live](#) | [github](#)

- A 2-player Tic-Tac-Toe game created with a dynamic board size and variable win conditions. This application was developed with a team of three during our first hackathon.
- Built with **JavaScript OOP**, **HTML5**, **CSS**, and **Bootstrap**.
- Developed and learned how to communicate, plan, and understand different ways individuals code.

PROFESSIONAL EXPERIENCE

Spectrum Brands, Commercial Finance, Financial Analyst | 2014-2017

- Received a promotion for creating the documentation procedures for the financial and pricing analyst role.
- Managed and forecasted several budgets (tradeshows, labor resets, marketing) that totaled around five million.
- Re-created the journal entries, reconciliations, and forecasting for the field sales channel for three different brands.

T-Force Group, HR Generalist | 2011-2013

- On and off boarding for employees as well as provide payroll, health benefits, and travel support.
- Also created the documentation for the procedures regarding the HR generalist role and responsibilities.

EDUCATION

**California State University,
Fullerton**

Fullerton, CA - 2010

B.A. in Business Admin,

Concentration in Finance

LearningFuze

Irvine, CA - 2017

*Accelerated Web Development
Program*

PERSONAL

Music lover with a fondness for dogs, sports, video & board games, architecture, and mac n' cheese. I'm also an aspiring world traveler that tries to consistently be active and healthy, but will indulge in the occasional food and movie or tv show binge.
